- + Dedicated UK-based support centres
- + Multiple geographical location options
- + Single sign-on capabilities

Typical SaaS pricing shown; based on an example of 25 users in total, per user/month, billed quarterly.

SaaS – Oracle Software as a Service

The PureAppsCloud SaaS solution is recommended for customers who have not yet purchased their Oracle software licences and require an infrastructure solution within minimal time constraints. To facilitate this, PureAppsCloud has listened to the market and responded to the growing demands. This service was ultimately formulated to be more cost-effective than the conventional approach of purchasing the licences outright and building your own environment. This also leverages all of the benefits from the PureAppsCloud to allow high adoption, lower initial costs and seamless integration. All of this is combined with fully licensed Oracle products for the duration of your agreement period.

Key Benefits of SaaS

- ▶ Lower costs & seamless integration
- ▶ Accelerate time to value
- ▶ Work from anywhere

BUSINESS ANALYTICS	PLANNING & BUDGETING	FINANCIAL MANAGEMENT
<p>£199/€239 per user/month*</p> <ul style="list-style-type: none"> ▶ Comprehensive, best-of-breed capabilities. ▶ Intelligence across multiple enterprise sources, including Oracle and non-Oracle data. ▶ Rich, interactive dashboards with guided analytics. ▶ Full ad hoc analysis over the Web. ▶ Full-featured disconnected analytics for mobile users. ▶ Proactive detection, alerts, and multistep analytic workflow. 	<p>£199/€239 per user/month*</p> <ul style="list-style-type: none"> ▶ Reduce planning, budgeting, and forecasting cycles by weeks or months. ▶ Improve accuracy of plans and forecasts. ▶ Shrink the user learning curve by leveraging Microsoft Office products as an interface into Oracle Hyperion Planning. ▶ Predefined functional solutions, powerful workflow and scalable architecture. ▶ Integrate financial and operational planning in one system. ▶ Meet immediate finance needs while enabling operations-specific budgeting processes. 	<p>£249/€299 per user/month*</p> <ul style="list-style-type: none"> ▶ Reduce consolidation, close, and reporting cycles by days or weeks. ▶ Deliver timely results, internally and externally. ▶ Reduce compliance costs and deliver a single version of the truth to improve internal and external transparency. ▶ Maintain a regulatory filing to general ledger audit trail, providing confidence in the financial results. ▶ Cut compliance costs and deliver a single version of the truth through the Web to improve internal and external transparency. ▶ Realize new benefits quickly with packaged regulatory reporting functionality.

Managed Services

The PureAppsCloud Managed Service option is ideal for customers who have already purchased perpetual licenses for each Oracle component and now require an environment upon which to host them. The pricing per environment shown in the table is an example based on a Production system with up to 20 concurrent users. As the user concurrency increases, this impacts the requirements for more infrastructure.

Please contact us for an accurate estimation of a managed service that is based on your specific requirements in terms of components, security, availability and user concurrency.

MANAGED		
<p>From £1,195/€1,495 per environment/month**</p>		
<ul style="list-style-type: none"> ▶ An economical solution for customers who want to have an environment that can be made available rapidly, within days, without the worry of purchasing hardware and configuring/managing complicated software products. 	<ul style="list-style-type: none"> ▶ Benefit from a hardware platform that has been designed to withstand a single point of failure with enough capacity to dedicate the required servers to your organisation on your own private network with compromising security. 	<ul style="list-style-type: none"> ▶ 8 hour hardware replacement in the event of an unresolvable hardware failure. ▶ Ideal for customers with enhanced security requirements due to dedicated servers and firewalls. ▶ Flexible connectivity options available for remote locations.

* Typical SaaS pricing shown; based on an example of 25 users in total, with quarterly billing.

** All Managed Services pricing is based on a typical example of 10 concurrent users.
